

## HIV-AIDS RACKET (AIDS INC) <sup>1</sup>

[Allopathic rackets](#) [Diseases](#) [Human Abuse](#) [Infectious scare](#)

[[Diabolical](#). Study medical history first, e.g. [Cancer Inc](#), [Smallpox virus racket](#), [Infectious scares](#), [Death by Allopathy](#), and other [Allopathic Rackets](#) first to remove the blinkers (mind control), then you will know that AIDS Inc is run by [Psychopaths](#) ([AIDS INC Psychology](#) clues: [AIDS Umbrella diseases](#) [AZT](#)) and you can see their trail in [The AIDS red flag parade](#). The biggest clue uncovering this racket is the fact they have known for 60 years or so [Vitamin C](#) will kill all viruses without killing the patient! Yet want people to take a highly toxic failed chemotherapy drug called [AZT](#)! This from a company, [Wellcome](#), who sold another immune destroying 'AIDS' causing party/sex drug called [Poppers!](#) It truly is one of the wonder of the medical world to see all the reams and reams of garbage written about a harmless or non-existent virus! By an industry that has well documented history of killing people for profit. And the wonderful power of [Authority](#).]

No HIV virus has ever been proven to exist.... AIDS is not a new disease, but a collection of old diseases renamed, and that the real threat to the public's health are the worthless HIV tests and toxic HIV/AIDS drugs.-----[Curtis Cost](#)

[2012 June] [GERM THEORY AND DEPOPULATION](#) by [Jon Rappoport](#)

[2003] [Depopulation and HIV](#) by [Jon Rappoport](#) "My book instead proved that HIV - wherever it came from - was a harmless retrovirus that was being used as a cover story to explain/conceal an emerging depopulation operation in the Third World. HIV was also a cover for other agendas outside the Third World. As long as AIDS is the target of WHO/UN "humanitarian" efforts, the actual causes - which are easily reversible - of death in Africa, Asia, and Latin America are allowed to remain and fester and expand."

"If commerce laws were applied equally, the 'knowing is beautiful' ads for HIV testing would have to bear a disclaimer, just like cigarettes: 'Warning: This test will not tell you if you're infected with a virus. It may confirm that you are pregnant or have used drugs or alcohol, or that you've been vaccinated; that you have a cold, liver disease, arthritis, or are stressed, poor, hungry or tired. Or that you're African. It will not tell you if you're going to live or die; in fact, we really don't know what testing positive, or negative, means at all.'"

Liam Scheff

"He was one of my most dramatic recoveries with AIDS, and the reason I say that is that he was the most far gone. He was in the absolute, end stage – they have that wing in the hospital where they have given up on you. You can smoke pot and do anything you want. They had given up on him."

Dr Richard Shulze, N.D., M.H.

"If the children refuse the drugs, they're held down and have them force fed. If the children continue to resist, they're taken to ...hospital where a surgeon puts a plastic tube through their abdominal wall into their stomachs. From then on, the drugs are injected directly into their intestines. In 2003, two children, ages 6 and 12, had debilitating strokes due to drug toxicities. The 6-year-old went blind. They both died shortly after. Another 14-year old died recently.....This isn't science fiction. This is AIDS research."
