

It's National Infant Immunization Week: Vaccine Court \$650K Award

**We built Ford Pinto to live up
to Dr. Gibson's indestructible Model T.**

When Dr. E. L. Gibson made his rounds in Coffee County, Alabama, a half century ago, he drove a solid reliable Ford Model T.

Today, at age 83, Dr. Gibson (right) is still practicing medicine in Coffee County. Still treating some of the same patients he treated a generation ago.

And he's still driving a solid reliable car: the Ford Pinto.

Which isn't so surprising, when you know something about how Pinto is built.

Unitized body. Pinto's body is welded into one solid piece of steel. Side doors are reinforced with steel guard rails. The roof has inner reinforcements of solid steel.

We built Ford Pinto to be a basic, durable, economical car... just like the one Dr. Gibson started out with.

See the 1973 Pinto at your Ford Dealer's: 2-door sedan, 3-door Runabout, and the popular Pinto Wagon.

Better idea for safety... buckle up!

The Pinto engine was developed and perfected in over 10 years of actual driving in small Ford-built cars all over the world. It's rugged and durable.

In addition, Pinto uses extra strength parts (ball and universal joints, starter motor, rear wheel bearings) where you need them most. Another reason why Pinto is rugged and dependable.

A four-speed full synchromesh transmission is standard on Pinto. (You can also get automatic, of course.) The transmission is sturdy and reliable. It was designed to be lubed for life, so it needs inspection only during routine maintenance.

When you get back to basics, you get back to Ford.

FORD PINTO

FORD DIVISION 

All 1973 cars must meet Federal Emissions Standards before use. See your Ford Dealer for details.

April 26 - May

2 is National Infant Immunization Week.

IN THE UNITED STATES COURT OF FEDERAL CLAIMS OFFICE OF SPECIAL MASTERS

Respondent denies injury, pays out \$650K in lump sum.

JEFF KAY and PAMELA KAY, Parents of MASON KAY, a Minor v. SECRETARY OF HEALTH * AND HUMAN SERVICES

On November 4, 2010, the parties filed a joint stipulation concerning the petition for compensation filed by Jeff and Pamela Kay on behalf of their son Mason on August 28, 2008. In their petition, the Kay's alleged that the Diphtheria-Tetanus-acellular Pertussis ("DTaP"), Hemophilus influenza type b ("Hib"), inactivated Polio ("IP"), Prevnar, and Rotavirus vaccines, which are contained in the Vaccine Injury Table, 42 C.F.R. §100.3(a), and which Mason received on March 3, 2008, caused him to sustain the first symptom of the onset of an encephalopathy and sustain

Respondent denies that Mason suffered the onset of an encephalopathy

within the time period set forth in the Table, and that Mason's seizure disorder and alleged residual effects were caused-in-fact by the DTaP, Hib, IP, Prevnar, and Rotavirus vaccines.

Nevertheless, the parties agree to the joint stipulation, attached hereto as Appendix A.

The undersigned finds said stipulation reasonable and adopts it as the decision of the Court in awarding damages, on the terms set forth therein.

Damages awarded in that stipulation include:

A lump sum payment of \$650,000.00 in the form of a check payable to petitioners as guardians/conservators of Mason's estate.

This amount represents compensation for all damages that would be

available under 42
U.S.C. §300aa-15(a).
