

GARDASIL VACCINE RACKET ([Merck](#) cervical cancer vaccine HPV4)
[\[back\]](#) [The Vaccines](#)

"Gardasil; it is useless and costs a fortune. In addition, decision makers at all levels are aware of it."----[Former Merck doctor](#)

[The latest [killer](#) (78 have died in the [USA](#)) disguised as [safe](#) and [effective](#), and a preventer, not cause, of [Genital warts](#). If you want to trust them ([Allopathy Inc](#)) over Human Papilloma virus (HPV) then you should know they haven't even proven any virus causes hepatitis, yet have lucrative tests and even a vaccine! ([see](#)), and they like to use viruses as a cover for their disease causing products ([1,2,3,4,5,6,7...](#)), such as other vaccines ([1](#)) and drugs which are known [causes](#) of female cancers ([1, 2, 3](#) & [see](#)), so with one (hidden) hand they cause the cancers, while with the other they sell you pseudo-cancer 'virus' insurance ([see](#)).

Also, not only have they suppressed dozens of non-toxic effective cancer therapies ([see](#)), they have suppressed many non-Allopathic [cures](#) for viral infections such as Vitamin C, known for 57 years ([1, 2](#)), herbal medicine ([1, 2](#)), [Oxygen Therapy](#) and [Electronic Medicine](#). The knowledge and use of which would mean no one would fear cancer ([see](#)).

But that would be bad for business, and the [Merck](#) killer bandits need to recoup some gold after their great [Vioxx](#) massacre (27,000 heart attacks and sudden cardiac deaths) caused by Vioxx, so another raid is in progress, and if you wanted any company to design an infertility vaccine ([see: 1, 2](#)) it would be Merck ([1](#))----'Tested on 100,000 ten year old girls in Africa.' ([1](#)). Not the first vaccine suspected of being used for that purpose ([1](#)). [Vaccine genocide](#) shows they are capable of it, along with why they invented the HIV virus ([see](#)), while they took 20 years to tell everyone Pellagra wasn't caused by one ([see](#)), and they certainly don't want you knowing smallpox vaccination never saved a single life but was killing 25,000 infants every year at its height ([see](#)).

Not a story to inspire great confidence in this [sodium borate](#), [Aluminium](#) and [Tween 80](#) containing vaccine ([see](#)). Run into the bushes with your kids and hide ([see](#)), a long tradition of African and Australian Aborigine mothers when the vaccine man calls. 😊

Merck spent \$841,000 for Internet ads alone relating to HPV in the first quarter of 2006 -- months before the FDA had even approved Gardasil ([1](#))

See: [Cervarix Sterilisation](#) [Zapper quotes](#) [Synergistic toxicity quotes](#)

these alleged contagious viruses are, in fact, particles produced by the cells themselves as a consequence of certain stress factors such as drugs. These particles are then identified by antibody and PCR tests and interpreted as epidemic-causing viruses by doctors who have been inoculated for over 100 years by the theory that microbes are deadly and only modern medications and vaccines will protect us from virus pandemics.

Dr Andrew Wakefield on HPV and H1N1 Swine Flu Vaccines Dr Andrew Wakefield talks about New Vaccines, HPV and the [H1 N1](#) Vaccines.

he mentions correspondence with Dr David Salisbury, director of immunization and now Chairman of WHO's [SAGE](#) committee and who also heads the WHO H1N1 Advisory Group

Dr Andrew Wakefield talks about New Vaccines, HPV and the H1 N1 Vaccines. He mentions correspondence with Dr David [Salisbury](#), director of immunization and now Chairman of WHO's SAGE committee and who also heads the WHO H1N1 Advisory Group

[Transcript] Since 1992 I was in correspondence, albeit intermittently, with David Salisbury and the Department of Health trying to prevail upon them then that we did not have any answers, that we had a series of questions generated by our own observations, and by parental reports that gave us cause for concern about the safety of the measles containing vaccines, and it was a very unsatisfactory relationship in as much that despite my repeated entreaties to Dr Salisbury there was very little response in return of any substance, in fact it took him 2 years to be forced into a position to respond and meet with me after my first letter to him.

Now I come to the second part of your question which was about the introduction of two new vaccines in the recent past and that is the cervical cancer vaccine against Human Papilloma virus and the Swine Flu vaccine, and I have grave misgivings about these as does the very doctor who was part of the senior team to oversee the development of the cervical cancer vaccine in the United States. I have just been in a meeting with her where she has expressed major reservations about the commercial way in which the campaign to force this vaccine into American children has been conducted, and there are increasing reports of safety concerns with this vaccine. Now, I have no experience with this vaccine, I have no detailed knowledge of it at all but if it is rushed to commercialisation, rushed to licensing with anything like we have heard then we have every reason to be concerned.

My concern about the swine flu vaccine in this country is that it intends to reintroduce a substance that was eliminated some years ago and that is [Thimerosal](#), the

mercury preservative. there is no safe level of Thimerosal, and there is most certainly no safe level to be given in an untested fashion to pregnant women or to infants, so why in heavens name is this now being reintroduced?

And the other concern with the vaccines to be used in this country is the presence of [Squalene](#), a substance, an oily substance that is used to boost the immune response, what is called an [adjuvant](#), and again there have been major concerns about the safety of this adjuvant, as it was used in the [Anthrax](#) vaccine in the Gulf War, and despite continuous denial that [Gulf War Syndrome](#) was an entity in soldiers, it has now becoming increasingly accepted, broadly accepted, that GWS is real and that it is related to the vaccines and other toxins that the soldiers were given.

The Murdering of Our Daughters

Merck and the CDC have determined that 1 out of every 912 who received Gardasil in a large study died. Yet, the cervical cancer death rate is only 1 out of every 40,000 women per year. In other words, girls are better off not taking the shot because the Gardasil shot kills the girls in greater numbers than does the disease it purports to treat ... read more ...

[It's real it's on CNN] Gardasil WARNING! - CNN Report 8.11.8

Sandy's excellent poem

GARDASIL?!

Come here dear little children
 Now you're nine years old
 We want the very best for you
 So please be brave and bold

...

When you get this little jab
 It'll give you some pain
 But it'll be so good for you
 Tho' it might affect your brain

It gives your little bodies
Such a healthy feast:
Aluminium and histidine
Some virus strains and yeast

There's polysorbate 80
But we don't mind at all
The nurses here will catch you
If you do faint or fall

There's borax which kills cockroaches
No joking, it is true
But the experts have told us
That it surely won't kill you

There are many thousands
Of side effects we hear
But we hope that you'll be lucky
And have nothing to fear

In fact nobody knows
If the jab will prevent
Any type of cancer
In any event

Some medical experts
Do in fact declare
That the jab may give you cancer
And they don't know if it's rare

We really want some grandchildren
When you become mature
The jab may make you sterile
Tho' nobody is sure!

We should send it to Meck, FDA, CDC and Obama what do you say??
