Merck lied.---[James B. and Hannah Yoseph](#)

"Gardasil; it is useless and costs a fortune. In addition, decision makers at all levels are aware of it."----[Former Merck doctor](#)

[\[2014 April\] Former Merck doctor predicts that Gardasil will be the biggest scandal in medical history.](#) Dr. Bernard Dalbergue mentions another example of how the pharmaceutical industry has deceived the public; Merck's anti-inflammatory product, Vioxx, proved to have serious side effects, including cardiac arrest, and Merck used a lot of effort to conceal the more than 30,000 deaths due to side effects. Immediately thereafter, they started to develop a similar new product, called Arcoxia, **where they just changed a few molecules**, and while people still died from Vioxx, which at the time had been revoked, doctors began to prescribe the new and equally dangerous product. "Arcoxia is now being prescribed and approved, but it is extremely dangerous. It's the same with Gardasil; it is useless and costs a fortune. In addition, decision makers at all levels are aware of it."

[\[2014 April\] Gardasil: Are you paying for your own bullet?](#) 'I predict that Gardasil will become the greatest medical scandal of all times because at some point in time, the evidence will add up to prove that **this vaccine has absolutely no effect on cervical cancer and that all the very many adverse effects which destroy lives and even kill, serve no other purpose than to generate profit for the manufacturers.**'...The full extent of the Gardasil scandal needs to be assessed: decision makers and many others knew when this vaccine was released on the American market that it would prove to be useless – and it costs a fortune! Diane Harper, a major opinion leader in the United States, was one of the first to question several aspects regarding this vaccine.....There is far too much financial interest for these medicines to be withdrawn.

Cases of Guillain-Barré syndrome, paralysis of the lower limbs, vaccine-induced MS and vaccine-induced encephalitis may be induced, whatever the vaccine...

In China, dissidents are executed with a single shot of a bullet to the neck and executions are broadcast on television. Worse still, the victim's families are made to pay for the bullet used. In my opinion, 18,000 to 30,000 deaths in France caused by medicines are the same: the patients are made to pay for the bullet which kills them

Merck is steeped in a well-documented record of criminality. Such actions include, but are not limited to, intentionally hiding the liver-damaging effects of its cholesterol drug, intentionally withholding the release of clinical data that revealed the failures of another cholesterol drug; it has dumped vaccine waste and manufacturing chemicals

into water supplies; it opened up offshore banking accounts to avoid paying billions of dollars in U.S. taxes, and it was caught in a huge scheme of scientific fraud when it was discovered that the company used in-house writers to secretly write so-called "independent" studies that were published in peer-reviewed medical journals. [The Horrors of Statin Drugs: The Misguided War on Cholesterol by Ingri Cassel](#) According to Dr. Whitaker, in 1989 and 1990, pharmaceutical giant Merck felt these effects were so clearly important that it patented the use of CoQ10 in combination with statin drugs. Products containing this important combination should have hit the market soon afterward. However, Merck chose not to exercise these patents, nor to help educate doctors and patients on the potential dangers of ingesting statins without CoQ10.

In 1994, Merck and Pasteur Mérieux Connaught (Pasteur) established an equally owned joint venture to market vaccines and collaborate in the development of combination vaccines, for distribution in Europe. Joint venture vaccine sales were \$581.3 million for 1997, \$663.0 million for 1996 and \$598.6 million for 1995. <http://www.merck.com/overview/97ar/p50.htm>

"[Dr. Offit](#) lists that he is a consultant to Merck. Dr. Offit shares the patent on the Rotavirus vaccine in development by Merck and lists a \$350,000 grant from Merck for Rotavirus vaccine development."--[Committee of Government Reform](#)

"Dr. Samuel **Katz** of Duke University has served as chair of both the **ACIP and the Red Book committees**. He co-chairs a group called the Vaccine Initiative, which is an information and advocacy group that benefited from start-up funds from at least six vaccine manufacturers. He is listed as an advisory board member to the Immunization Action Coalition (which includes the Coalition for Hepatitis B), an advocacy group that receives funding from several vaccine makers, including SmithKline Beecham, Merck and Wyeth-Lederle.....Dr. Neal Halsey of Johns Hopkins University<http://www.vaccinesafety>. Like Katz, he is a vaccine pioneer and served on ACIP and the Red Book committees. He, too, is an advisor to the Immunization Action Coalition and the Hepatitis B Coalition. Halsey is also director of the Institute for Vaccine Safety, which he founded at Johns Hopkins to provide a forum on vaccine safety, among other things. According to a Johns Hopkins' spokesperson, the institute receives funds from Merck, SmithKline Beecham, North American Vaccines, Connaught/Pasteur Merriex and Wyeth-Lederle."----Nicholas Regush

"Maurice R. Hilleman Ph.D., a leading expert on immunization, developed over 40 vaccines and published more than 480 original articles on virology, epidemiology, immunology, and infectious diseases.

Two years ago, a 1991 confidential memo from Dr. Hilleman to the head of Merck's vaccine division was made public.(2) In the memo, Dr. Hilleman wrote "*The regulatory control agencies in some countries, particularly Scandinavia (especially Sweden) but also UK, Japan, and Switzerland have expressed concern for thimerosal, a mercury preservative, in vaccines. Some countries require absence of thimerosal from single-dose package. This trend will probably spread... Sweden is requiring thimerosal free single-dose packaging of all products as soon as can be reasonably achieved. The deadline for DT is January, 1992... "The focal point for present concern is in Scandinavia... The immediate Merck concern is to be able to qualify for sale of single-dose products in Sweden and in Norway and Denmark... The public awareness has been raised by the sequential wave of experiences in Sweden including mercury exposure from additives, fish, contaminated air, bird death from eating mercury-treated seed grains, dental amalgam leakage, mercury allergy, etc... In some instances, public immunization programs may be endangered by public refusal to accept vaccines with thimerosal."*

Dr. Hilleman went on,

"For babies: The 25 µg of mercury in a single 0.5 ml dose and extrapolated to a 6 lb baby would be 25X the adjusted Swedish daily allowance of 1.0 µg for a baby of that size... If 8 doses of thimerosal-containing vaccine were given in the first 6 months of life (3 DPT, 2 HIB and 3 Hepatitis B) the 200 µg of mercury given, say an average size of 12 lbs would be about 87X the Swedish daily allowance of 2.3 µg of mercury for a baby of that size."

To put all this into perspective: In 1991, we have an international expert (and the # 1 US vaccine expert) on vaccines telling the chief of the vaccine division of the largest US vaccine manufacturer that ***it is imperative to immediately produce mercury-free vaccines for Scandinavian children*** in order to avoid exposing them to unacceptable levels of mercury and to guarantee a market share.

All this while the CDC and the FDA were introducing a new mercury-containing vaccine and no one, including members of the medical profession, was uttering not a word and doing absolutely nothing, about the copious amounts of mercury that were being injected in American infants."--[The First Cancer Vaccine: Facts and Failings By F. AMERICAN ACADEMY OF

PEDIATRICS http://www.cspinet.org/integrity/corp_funding.html

"Friends of Children Fund" Annual Report, July 1, 1996 - June 30, 1997, indicates \$2.085 million in funding from corporations. Donors include Procter & Gamble, Gerber, Infant Formula Council, McNeil Consumer Products Company, National

Cattlemen's Beef Association, Johnson & Johnson Consumer Products, Abbott Laboratories, Wyeth-Lederle Vaccine & Pediatrics, Mead Johnson Nutritionals, SmithKline Beecham Pharmaceuticals, Schering Corp., Rhone-Poulenc Rorer, Food Marketing Institute, Sugar Association, International Food Information Council, **Merck** Vaccine Division, and others. Also gets foundation support (RWJ, Pew, etc.).

The Rockefellers monopolized American medicine in the 1920s. They, along with I.G. Farben, Germany's leading industrial organization, held the monopoly on the world's chemical and pharmaceutical industries. The Rockefellers and I.G. Farben worked together before World War II and during World War II. **For all practical purposes, the Rockefellers and I.G. Farben were the Third Reich.**

But then, unfortunately, if you're a true researcher, you don't even stop there. Suddenly you get laid out all of the other more insidious, more horrifying documentation, such as who also gave rise to Hitler's racial hygiene program - they're the same people. They funded it. It was the Rockefeller family that built and funded the Kaiser Wilhelm Institute for Anthropology, Eugenics and Human Heredity, which was run by Swiss psychiatrist [Ernst Rudin](#), who was named president of the worldwide Eugenics Federation in 1932.

Now that's real well articulated in that book published by St. Martin's by Aarons and Loftus called *The Secret War Against the Jews*. And also another very good book by Little Brown called *Martin Bormann: Nazi in Exile*. Martin Bormann, like Hitler, was never found. It's only come out recently on the History Channel that they admit it's likely that the carcass that was found in the bunker in Berlin was not Hitler's. I just saw that the other day on the History Channel. It was either the History or Discovery Channel, one of the two. Martin Bormann is clearly known to have skipped town and was never found.

This was Germany's principle money man. He was in charge of the Nazi war chest. The entire German economy was under his direction. He was the liaison with the bankers, the Rockefellers. He laundered half of the remaining Nazi war chest through the Chase Manhattan Bank. The Paris branch, which remained open throughout the German occupation of France. And of course there was congressional testimony as to how the Rockefeller family and Standard Oil were operating and making fortunes off both sides during World War II.

When Hitler and Martin Bormann knew they were going to lose the war, they invested their treasury in 750 corporations to produce a monopoly over the world's pharmaceutical and chemical industries. Hitler and Bormann invested heavily in Merck and other pharmaceutical companies. They not only knew that would be a good way to make money as a future investment, but they also knew that, given the Holocaust, you can mass exterminate people through chemicals, gasses and pharmaceuticals. You can take people out untraceably that way.

So that was the target and primary objective for the rise of the Fourth Reich.

That's what's going on today. The Nazis planned for it, they even had a term for it - "neue Ordnung," which means New Order, New World Order. This today, this New World Order, is the rise of the Fourth Reich. This is precisely what they envisioned and then carried out.

The populations that have traditionally been targeted for genocide. I have a series of slides taken just weeks ago from the Denver Airport. There's a capstone, a dedication stone in the main terminal building of the Denver Airport dedicated to the New World Airport Commission by the Freemasons. And there's a big mural - a huge, beautiful, colorful mural - that is dedicated to the extinct species. And in the foreground, against the horrific backdrop of flames and destruction, there are three open coffins. [THE SATANIC NAZI FLU CONSPIRACY by Jim Redden](#)

"We suspect financial ties between vaccine manufacturers and medical groups such as the American Medical Association and American Academy of Pediatrics (AAP) which endorse the (hep B) vaccine," says Dr. Orient, pointing to a substantial donation to AAP from **Merck** & Co. "And the federal government pays the state a bonus up to \$100 for every "fully" vaccinated child. What's their motive -- money or medicine?" [Jane Orient M.D.](#)

"About six times a year, **Merck** and Co. pays Dr. Lawrence Frenkel as much as \$750 to give talks on vaccines, including the chickenpox vaccine that Merck makes. Frenkel is one of five members of the state Immunization Advisory Committee who have disclosed on reporting forms that they have financial interests in Merck."--[Media](#)

"The title page of a genuine US Senate Study, declassified on February 24, 1977, shows that George **Merck**, of the pharmaceutical company, Merck Sharp & Dohme (which now makes cures for diseases that at one time it created), reported in 1946 to the US Secretary of War that his researchers had managed "for the first time" to "isolate the disease agent in crystalline form"---[Donald W. Scott MA, MSc.](#)

"One CFR published policy objective is substantial worldwide depopulation including half of the current U.S. population being targeted. This population reduction program is largely funded by the Rockefeller Foundation and the Merck Fund, both financially and administratively linked to the Merck pharmaceutical company--the world's leading vaccine manufacturer.....Records show the Merck pharmaceutical company received a major share of the Nazi "flight capital" at the close of World War II when its president, George W. Merck, was America's biological weapons industry director. These facts were revealed by Norman Covert, Army public relations director at Fort Detrick in Frederick, MD, and veteran news correspondent Paul Manning in his book "Martin Bormann: Nazi in Exile" (Lyle Stuart, Inc, 1981). "Genocide is defined in Webster's as "the deliberate and systematic destruction of a racial, political, or cultural group." Today, in America, 75 percent of AIDS cases are Black and Hispanic. AIDS I prove in my book, "Emerging Viruses: AIDS and Ebola" most plausibly evolved out of the Merck pharmaceutical company's hepatitis B vaccine trials on gay men in New York City and Blacks in Central Africa. Today, the largest vaccine maker, Merck--a company with direct financial and administrative ties to Hilter's Third Reich and America's biological weapons industry--is also a leading proponent and principle funding source for world population reduction."---Leonard Horowitz

"Conflicts of interest aside, Merck's top vaccine developer, Dr. Maurice Hilleman's tape recorded admission of having brought the AIDS virus to North America in monkeys destined for vaccine research and development at Merck, should be investigated by scientists, citizens, and legislators alike."-Horowitz

"I have minutes from a CDC Study Group Meeting on the Hepatitis B vaccine held in March, 1997.It should be noted that the afternoon session of this meeting was chaired by Dr. Robert Sharrar of Merck."--[Betty D. Fluck](#)

"A Sunday Express investigation has found that nearly a third of the 181 experts who sit on the Medicines Control Agency (MCA) committees are linked to GlaxoSmithKline, Aventis Pasteur or Merck, Sharpe and Dohme."--[Sunday Express](#)

"The (Illinois) department followed the recommendation of a panel of experts, its Immunization Advisory Committee, while rejecting the advice of others who thought the decision should be left to parents and pediatricians. But in what critics consider a conflict of interest, 5 of the committee's 18 members have financial ties to Merck, which makes the chickenpox vaccine. Two members of the committee have given talks for Merck, receiving up to \$750 per speech. A third member directs a nonprofit group that has received \$20,000 in grant money from the company. And two other members own stock in Merck, including one who has owned as much as \$16,000 worth."--[Media Jan 2002](#)
