EDWARD JENNER

"I well remember, some years ago, listening to a knighted medical researcher as he spoke, on the radio, about vaccines. He told two classical stories from the history books. The first concerned Edward Jenner who, according to history, watched as the milkmaid caught cowpox and this protected her from smallpox. So Jenner got some of the 'cowpox' and inoculated it into someone's arm - it fostered and the pus was then inoculated into someone else - 100% success was claimed. 100%!! How absurd - complete with all sorts of germs including hepatitis, syphilis and whatever. If one did that today, without antibiotics, the death rate would be huge.

Dr Archie Kalokerinos M.B.B.S

Smallpox Vaccination in the PHILLIPINES 1905-1920

"Between 1918-1919 there were 112,549 cases of smallpox notified, with 60,855 deaths. Systematic (mass) vaccination started in 1905, and since its introduction case mortality increased alarmingly."

Dr Archie Kalokerinos M.B.B.S, PhD, F.A.P.M.

NUTRITIONAL (NOT ALLOPATHY) CURE FOR HEART DISEASE

"One day I was consulted by a young man who had cardiomyopathy...was obviously extremely ill and was on the waiting list for a suitable donor heart.I decided to try a broad mixture of various vitamins and minerals....The patient stopped smoking, began to eat 'good' food and...lead a good life-style. Slowly, at first, he began to improve, then this became obvious to an extent where the heart was functioning at 80% of normal. Eventually he was able to lead a normal life - working and without any apparent heart problems.....During the next few years I treated several more patients with similar dramatic responses. No doubt, if I saw more patients I would eventually come across some where causes were different and results would, therefore, not be good but it so happened that I never had a failure. To this day, unfortunately, my colleagues remain entrenched in scepticism."

Dr Archie Kalokerinos A.M.M., M.B.B.S., Ph.D., F.A.P.M.

'SHAKEN BABY SYNDROME' DIAGNOSIS LIE

"I have no doubt that this 'shaken baby' business will eventually be recorded as one of the worst pages in the history of paediatrics. And the saddest part of it all concerns the fact that, while important doctors are busy collecting 'evidence' for the prosecution, vital issues that can save many lives are being not only ignored but destroyed with intense hostility. During one trial, the prosecution stated that infantile scurvy was no longer seen. I replied with 'Yes it is. But it is not called 'scurvy' it is called the 'shaken baby syndrome'.I do not doubt that it is possible to shake a baby to death. However, in the 35 cases I have extensively investigated, there were substantial reasons to conclude that shaking was not the cause of the pathologies found."

SUPPRESSED NUTRITIONAL ADDICTION CURE (PSYCHOPATHY)

"We have developed a non-toxic, detoxication procedure where we can take the addicts off heroin or methadone with no withdrawal symptoms. The addicts have no desire to return to the drug and if they do take a "fix," it is like injecting plain water, the detoxication is so complete and rapid.Methadone is far worse on the body, from a metabolic point of view, than is heroin.....It is unconscionable to me to put a person on methadone maintenance with no way to get them off.....Why is it that the media supports orthodox views so readily, rejecting all other avenues of scientific investigation?"

Dr Archie Kalokerinos A.M.M., M.B.B.S., Ph.D., F.A.P.M.

EDWARD JENNER

"In a recent letter from Dr. A. Ward of the Pathology Department, University of Hong Kong, in which he requests permission to use some of our findings in his textbook on immunology, Dr. Ward states: "I again like you do not worship Louis Pasteur and I consider Edward Jenner to be one of the great criminals of history."

Dr Archie Kalokerinos MBBS PhD (1977)

COT-DEATH DIAGNOSIS PLOY

"Furthermore, much depends on how statistics are gathered. Until recently most autopsies on infants were carried out in a haphazard fashion. Often, no autopsies were performed. Now, in most parts of the western world, strict criteria are applied and autopsies performed by specialist teams. Many cases that previously would be considered as qualifying for the diagnosis of SIDS are now excluded. This artificially reduces the incidence compared to pre-autopsy and specialised consideration times. To accurately follow recent trends one needs to look at the overall infant mortality rate. This is the bottom line and cannot be easily manipulated."

GENOCIDE BY DIRTY NEEDLES

"As far as I know nondisposable needles are still being used in Africa. If I did that here I would immediately be deregistered and probably goaled. In Sept 1993 I purchased a copy of the special edition of Scientific American dedicated to immunology...(it shows) a Nigerian infant being vaccinated. Unfortunately the person doing the vaccinating was using a nondisposable needle!"

**Dr Archie Kalokerinos
Medical Pioneer p. 294. (2000).**

VACCINE GENOCIDE

"Deliberate attempts have been made to allow (Aboriginal) infants under my care to die. The real authorities don't want these infants to live. The real intention on the part of the authorities is genocide."

**Dr Archie Kalokerinos
A.M.M., M.B.B.S., Ph.D., F.A.P.M.**

[Archie Kalokerinos M.D](#) [Vaccine genocide](#) [Dirty needles](#) [Medical Pioneer of the 20th century p294](#)

MEASLES VACCINE GENOCIDE

"It was similar with the measles vaccination. They went through Africa, South America and elsewhere, and vaccinated sick and starving children...They thought they were wiping out measles, but most of those susceptible to measles died from some other disease that they developed as a result of being vaccinated. The vaccination reduced their immune levels and acted like an infection. Many got septicaemia, gastro-enteritis, etcetera, or made their nutritional status worse and they died from malnutrition. So there were very few susceptible infants left alive to get measles. It's one way to get good statistics, kill all those that are susceptible, which is what they literally did."

Dr Archie Kalokerinos A.M.M., M.B.B.S., Ph.D., F.A.P.M.

FLU VACCINE DEATHS

"In 1976 I was working in the Gulf Country around Cape York, in an aboriginal community of about 300 people. The Health Department sent around a team and vaccinated about 100 of them against flu. Six were dead within 24 hours or so and they weren't all old people, one man being in his early twenties. They threw the bodies in trucks to take to the coast where autopsies were done. It appeared they had died from heart attacks".

ALLOPATHY DIAGNOSIS PLOY (A USEFUL 'MYSTERY')

"I once attended, as a guest of the professor of paediatrics, a 'clinical pathology' session in one of Australia's leading children's hospitals. Such meetings are a routine in all major hospitals. A case that was not properly diagnosed before death is selected for discussion. The particular case that day concerned a very young baby who suddenly developed respiratory distress and died. One pediatrician after another expressed an opinion about the cause. Someone thought that the problem was an unrecognised congenital heart defect. Someone else thought it was asthma. The discussion went on for sometime. Then the pathologist told the meeting that the autopsy had revealed 'pneumonia'. That was the end. There was no more discussion. The room was soon emptied. I sat there astonished. Nobody had bothered to ask why an apparently healthy baby suddenly developed pneumonia and died. There was no discussion about risk factors, immune factors or anything else. As far as the professor and doctors were concerned the cause of death was 'pneumonia' and that was that!"

RUBELLA VACCINE USELESS

"In October, 1972.....Dr. Beverly Allen, a medical virologist, gave overwhelming evidence against the effectiveness of the vaccine. So stunned was she with her investigations that it caused her...to question the whole area related to herd immunizations...the first trial concerned army recruits who were selected because of their lack of immunity as determined by blood tests. These men were given Cendevax, an attenuated rubella virus that is supposed to protect. They were then sent to a camp which usually has an annual epidemic of rubella. This occurred three to four months after they were vaccinated, and 80% of the so-called immune recruits became infected with rubella virus.....Additional disturbing evidence was sent to us by a Melbourne GP who was in the United Kingdom at the time that Chief Health Officer Sir Henry Yellowlees, had released a press statement (February 26, 1976) informing doctors that, in spite of high vaccination figures, there had been no detectable reduction in the number of babies born with birth defects."

Dr Archie Kalokerinos A.M.M., M.B.B.S., Ph.D., F.A.P.M.

VITAMIN C MEASLES CURE

"But the ordinary child who gets measles, even the child with a moderate degree of malnutrition and so forth, if you give intravenous vitamin C supplementary to other forms of treatment, the response very often, not always, is absolutely dramatic If you get them early enough. You must get them early. If you delay, and they have been unconscious let us say for days, or a day or two, you cannot reverse it. The damage is permanent. If you get them early, give them this treatment and there is no problem. And that makes me very, very angry, because they talk about 'Oh, we must stop these kids getting measles' and so forth. Well, all right, I can fix them if they get measles."

Dr Archie Kalokerinos

THE VACCINE HOAX & WHO VACCINE GENOCIDE

"The further I looked the more shocked I became. I found that the whole vaccine business was indeed a gigantic hoax. Most doctors are convinced that they are useful, but if you look at the proper statistics and study the instances of these diseases you will realize that this is not so . . . My final conclusion after forty years or more in this business [medicine] is that the unofficial policy of the World Health Organization and the unofficial policy of the 'Save the Children's Fund' and ... [other vaccine promoting] organizations is one of murder and genocide. . . . I cannot see any other possible explanation. . . . You cannot immunize sick children, malnourished children, and expect to get away with it. You'll kill far more children than would have died from natural infection."

VITAMIN C VIRAL INFECTIONS CURE

"The matron was convinced that the diagnosis was meningitis so she prepared a lumbar puncture. I had however, seen this problem before. Lumbar punctures performed by me had been negative and the infants died....the trauma of inserting a needle...might result in a haemorrhage that might cause spinal cord paralysis. So I decided to give an injection of vitamin C...I probably gave as many as 6 injections, each 100mg. After half an hour Mary was normal. It was hard to believe, but I had performed a miracle!...I found that any viral infection, including measles and hepatitis, could be dramatically 'cured' by administering Vitamin C intravenously in big doses-- provided that treatment was commenced early."
