The

JNO. PICKERING, F.S.S., F.R.G.S

[Usual story of government fix] The number of persons adduced as supporting it when before the Committee of the House of Commons was forty; but the Public has not been told that out of this forty, twenty-three spoke from hearsay only, not from any knowledge they had acquired by practice, while the three persons who spoke against it, corroborated their evidence by proofs. Strong as this fact is, no one has taken notice of it. A LETTER OCCASIONED BY THE MANY FAILURES OF COW-POX. From JOHN BIRCH, Esq.
